

# Internet-based treatment for depression

Researchers at McLean Hospital are conducting a research study of the effects of internet-based therapy in people with depression.

You may be eligible if you:

- Are between 18 & 45 years old
- Have depression
- Have not had a head injury or neurological illness
- Are right-handed and fluent in English

What's involved:

- 3 visits to McLean Hospital (about 4 hours each); compensation up to \$500
- 10 weeks of a FREE interactive online treatment
- Cognitive/emotional testing and questionnaires
- Two 1.5-hour MRI brain scans
