NMR is currently seeking candidates for a Research Associate I position.

We are a small but expanding consulting firm specializing in evaluation of energy efficiency and renewable energy programs. The position is located in NMR's office in Davis Square in Somerville, Massachusetts. Efficiency and renewables are burgeoning fields providing excellent career opportunities for social scientists.

NMR currently seeks to hire individuals possessing knowledge, skills, and abilities typically gained through bachelor's level education or prior work in engineering, environmental science, policy, economics, sociology, or other social science programs. The responsibilities will include but are not limited to the following:

- Designing, implementing, and analyzing survey data
- Conducting semi-structured interviews
- Performing descriptive quantitative analyses using SPSS or similar data analysis packages
- Writing clear and concise research summaries, memoranda, and reports
- Conducting energy audits
- Some general administrative/clerical duties
-

This position will require individuals to occasionally perform inspections of residential and commercial buildings in order to assess the efficiency of various building components. These inspections may require employees to travel up to 50% of the time. Experience and understanding of the principles and practices of program evaluation is a bonus.

The ideal candidate has completed a Bachelor's degree in engineering, environmental science, policy, economics, sociology, or another social science field. Successful employees will have opportunities for advancement in this growing company and field.

Submit your resume and cover letter via email to openings@nmrgroupinc.com Please, do not call NMR directly. Due to the high number of applications expected, we will not be able to respond to each submission.

NMR is committed to the environment and to minimal greenhouse gas emissions. Our carbon footprint is much smaller than similarly sized office-based business in the Northeast. We offer competitive benefits including health, dental, disability, 401K, T passes for those who commute via public transportation, and three weeks paid vacation (and up to five weeks after multiple years of employment).

NMR is an equal opportunity employer. Applicants who would increase our strategic advantage by adding to the diversity of backgrounds of our team are encouraged to apply.
